

English

The children will continue to learn to read and spell through multisensory techniques. This will include a variety of activities using all the senses. They will consolidate their letter formation and will continue to develop their listening and speaking skills.

The children will look at different types of texts based on Shopping.

The core texts will be: Supermarket Zoo, and Maisie goes to the City.

Kingfisher

Summer Term 1 2017

Miss Verdu

Miss Paul

Miss Hussen

Mathematics

The children will continue to develop and consolidate their knowledge of numbers. They will learn about position and movement, for example, moving through a maze, completing puzzles, and making pictures using shapes. The children will begin to develop the use of everyday language related to money, and to use it for addition and subtraction in order to help them in their day to day situations.

Other Curriculum Subjects

Physical Development: The children will continue to develop their gross and fine motor skills, stretching and relaxing through Yoga sessions. They will be using a range of balancing equipment to travel under, over and around apparatus.

Personal, Social and Emotional Development: The children will continue learning about managing their behaviours and how to work within a small group.

Understanding of the World: The children will have lots of fun studying and exploring their environment and different places around the world through food, languages and buildings.

Art Therapy: The children will develop their cooking skills and creativity following recipes and exploring what happens when food colours are mixed.
